CORRUGATED BOARD PACKAGING SOLUTIONS

WWW.EASTERNPAK.COM
In March 1956, Georges N. Frem, recognizing that the demand for packaging materials in the Arabian Gulf was bound to exponentially increase, forged a partnership with future-minded Saudi businessman Abdul Rahman Al-Moaibed to create the National Paper Products Company in Dammam. NPPC was the first manufacturing plant for paper bags, cement bags, tissue rolls and plastic crates in Saudi Arabia.

Initially supplying Aramco and a small institutional market, the company quickly expanded to produce tissue consumer products given the high demographic growth and new market needs. In 1963, NAPCO pioneered plastic film manufacturing in the Arabian Gulf, two decades before the inauguration of the plastic resin industry.

Nearly 60 years after its establishment, NAPCO companies have diversified to manufacture a wide array of products for diverse markets around the globe. Today, they are structured across three strategic business units: Consumer Products Division, Flexible Packaging Division and Paper Containers Division.
Located in Saudi Arabia, EASTERNPAK is an internationally oriented company that aims to add value to industrial and agricultural commodities by manufacturing and converting sustainable packaging to meet its customer’s needs.

Since its founding in 1994, the company has offered a wide range of creative and recyclable corrugated packaging solutions to the GCC, Africa and Levant markets.

Our results-driven team of packaging designers, technologists and production experts specialize in supplying carry solutions, shipping and transportation boxes, and high-resolution promotional packaging, in addition to catering and delivery boxes.

To comply with the standards set by the industry, EASTERNPAK is an ISO-9001:2008, BRC-IOP, GMP and a HACCP-certified manufacturer and seeks continuous excellence in all the services it provides.

EASTERNPAK is a NAPCO company, a sister company of INDEVCO Group.
OUR VISION
“WE WORK TO REINFORCE OUR COMMITMENT TO SOCIAL RESPONSIBILITY BY MANUFACTURING INNOVATIVE AND RECYCLABLE PAPERBOARD PACKAGING, AND WE AIM TO BE PERCEIVED AS THE COMPANY OF CHOICE BY SEEKING EXCELLENCE AND EMBRACING NAPCO CORE VALUES.”
WE STRIVE FOR SUSTAINABILITY

While packaging is an integral part of modern day living designed to protect, preserve, promote and enable efficient distribution of consumer goods, it is essential to EASTERNPAK to contribute to a sustainable society by making sustainable packaging across the supply chain.

In order to play an active role in building a sustainable society and minimizing the negative environmental impacts caused by manufacturing activities, EASTERNPAK is committed to investing in equipment, accreditations, training and innovation and to sourcing renewable or recycled materials.

Corrugated board, the primary material we use in our manufacturing processes, is sustainable by nature. It is an environmentally friendly product made from organic materials such as paper and starch glue. With this green advantage in hand, we make every effort we can to manufacture products with the minimum environmental impact possible.

There are numerous ways in which corrugated board can serve as a carry solution. Whether a storage box, a sales kit or a promotional pack, our corrugated packaging can incorporate different handle styles that are customized to your needs and offer carrying convenience.

**BOTTLE CARRIERS**
Our bottle carriers are designed to accommodate between one and four bottles, in addition to a wide variety of promotional items.

**PACK CARRIERS**
Designed to increase customer satisfaction by facilitating the carrying of multiple cups or bottles, pack carriers are a classic solution for the beverage and takeaway sectors.
**WRAP CARRY CARTONS**
Wrap carry cartons enclose the product for full protection and easy carrying while maximizing the promotional surface.

**MULTIFUNCTIONAL CARRIERS**
Our multifunctional carriers are designed to satisfy your specific needs and to provide functional and customized carry solutions for a variety of product types and dimensions.

### TECHNICAL SPECS

| PAPER  | · Brown or white  
|        | · Uncoated or coated  
|        | · Virgin or recycled |
| FLUTING | B, BE, E, T |
| PRINTING | Flexography: Post-print (up to 5 colors) or pre-print (up to 6+1 colors) |
Our promotional and display packaging solutions consider the ease and speed of shelf filling as well as how to optimize the appearance and promotion of your brand. Since a majority of purchase decisions are taken directly at the point of sale, it is important to use displays as a marketing tool to effectively communicate brand messages to the consumer. Our wide range of customized promotional packaging uses structural and creative designs to maximize your brand’s impact and increase sales.

POWDER DETERGENT BOXES
Printed and laminated corrugated boxes with moisture barriers, easy-open tear tapes, and paper or plastic handles are ideal for packing powder detergents.

COUNTER-STAND DISPLAYS
Customized in various structures, our counter stands are designed for convenient display on supermarket and retailer counter-tops.
TECHNICAL SPECS

| PAPER      | - Brown or white  
|            | - Uncoated or coated  
|            | - Virgin or recycled  
| FLUTING    | - B, BC, BE, C, E, T  
| PRINTING   | - Flexography: Post-print (up to 5 colors) or pre-print (up to 6+1 colors)  

SHELF-READY PACKAGING
Delivered in a ready-to-sell merchandising unit, these display boxes reduce shelf replenishment time and optimize stock and shelf space management.

PROMOTIONAL BOXES
Ideal to help your products stand out on the shelves, promotional boxes are made from micro-flutes providing rigidity and a great promotional surface.
We provide strong, high-quality and sustainable shipping and transport solutions that are suitable for a variety of industries and purposes. Tailored to protect your goods during transportation, our products ensure safety and stacking resistance while providing an easily printed base for effective branding communications.

**BULK BINS**
Designed to endure logistical requirements for heavy weights, our double and triple bulk bins are an excellent solution for storing and shipping bulk solid or liquid products.

**CONTAINERS**
A multitude of practical and recyclable regular slotted containers are used to transport a wide range of consumer products. This upright box usually has outer flaps that meet at the center on both the top and bottom surfaces.
INDUSTRIAL TRAYS
Our customized industrial trays are optimized for pallet stacking, and they meet various supply chain demands whether commercial or logistical.

WRAPS
A world-renowned packaging style for bottling companies, our corrugated wraps guarantee firm product grouping, with a considerable cost advantage over regular slotted containers.

TECHNICAL SPECS

| PAPER          | . Brown or white  
|                | . Uncoated or coated  
|                | . Virgin, kraft or recycled  |
| FLUTING        | B, BCC, BC, BE, C, E, T  |
| PRINTING       | Flexography: Post-print (up to 5 colors GCMI), pre-print (up to 6+1 colors) or one color/spot (standard resolution)  |
CATERING AND DELIVERY

PIZZA BOXES
Ideal for delivering hot and fresh pizza to a satisfied customer, our wide variety of food grade certified pizza boxes are made up of superior-grade raw materials.

Our corrugated catering and delivery line for the restaurant, food service and catering industries is customizable and FDA-approved for food packaging. In addition, we offer an impressive line of pizza boxes and innovative packaging to fulfill your bakery and deli packaging requirements.

SANDWICH BOXES
A range of food grade certified corrugated boxes for sandwiches and burgers in various shapes are available with high-resolution graphics for effective branding.
TECHNICAL SPECS

| PAPER       | Brown or white  
|            | Uncoated or coated  
|            | Virgin or food grade certified  
| FLUTING    | B, E, F  
| PRINTING   | Flexography: Post-print (up to 5 colors) or pre-print (up to 6+1 colors)  

MEAL BOXES
Customizable lunch boxes are used to store and deliver a complete meal, with various items smartly packed in modular inserts.

PASTRY BOXES
A range of high-resolution printed corrugated pastry boxes are available with window patching, providing effective protection and display of cakes, pastries and sweets.
Whether you are looking for a quick brand impact or informational text with large graphics, our flexographic printing systems and various finishing techniques will make your packaging stand out.

We offer the most cost-effective printing and finishing processes for promoting your product in accordance with international standards and the Saudi and Gulf market requirements.

We specialize in flexographic standard post-print, flexographic high-resolution pre-print with water-based varnish, and other finishing techniques.
At EASTERNPAK we work with clients from every imaginable sector, large and small, multinationals to start-ups. Our top priority is to supply quality and smart corrugated solutions catered to our customer’s business needs.

Our divisional innovation center and its highly qualified packaging designers and professionals follow a versatile design method that involves different criteria taking any challenge required to meet marketing needs. This approach, guided by the INDEVCO Paper Containers’ design philosophy, guarantees product protection and sustainability throughout manufacturing processes while ensuring distinctive visibility at the point of sale.

We design solutions from the initial concept to production, stock-holding and delivery. At the same time, we always consider how we can optimize fluting combinations to provide increased product protection and safety, and reduce losses in the supply chain.

Our customer services team covers direct and online support. We use the latest technology to offer our customers online access to browse our library, view customized 3D interactive samples, request orders, check payments and track orders.
